### BioSense™ Ring Size Guide

*How to determine your ring size*

#### MEASURE YOUR FINGER

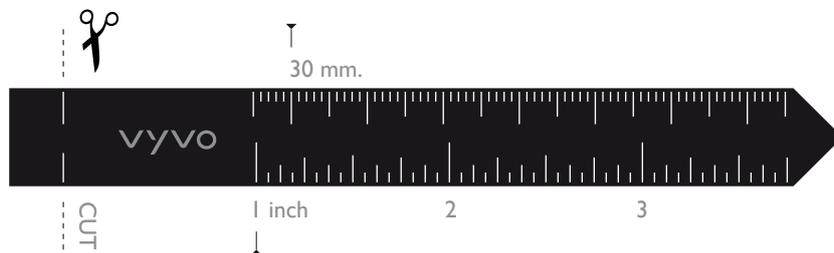

**To get the best results, before printing this page, ensure the “Scale to fit” option is unchecked in the print dialogue box.**

Use a ruler to verify the printed scale is correct. Have a comparison ring ready. This should be a ring that you wear on the same finger as you intend to wear the Vyvo ring.

#### HOW TO USE THE VYVO TAPE MEASURE

1. Wrap the printed Vyvo tape measure around your finger. Note the measurement, and consult the Vyvo ring size table to determine your ring size.
2. Please note for your order that Vyvo uses European sizing, which you can find in the ring size table.
3. If your measurement is between two sizes, choose the larger size.
4. Position your ring over the circles shown below to determine which one matches your size. The diameter should correspond exactly with the diameter of your ring.

#### VYVO TAPE MEASURE\*
